

History Revealed Program Historical Marker Application

In June 2021, the Alabama Historical Association Board of Directors voted to support the creation of *History Revealed*, a pilot program to assist local communities in placing historical markers that document underrepresented aspects of Alabama history. In 2021-2022, the Association will produce five markers under the new program at no cost to local communities. This form constitutes a request for a new marker to be considered for the project. The Association's historical marker committee will review all requests and make its selections by November 15, 2021.
